

1. The Forecast is based on the WRF model run made at APSDPS for 2 days using NCEP global model dataset as input.
2. Mandal forecast provided is by converting gridded output of the model averaged to Mandal boundary and not the point rainfalls forecasted at Mandal headquarter.
3. The forecast may be taken as guidance / outlook for weather conditions for next two days only.
4. APSDPS doesn't take the responsibility for any misinterpretation whatsoever drawn out of the forecast.
5. For detailed model forecast performance statistics APSDPS may be contacted at '**info.apsdps@gmail.com**'
